i-Sprint Mobile Token for SWIFT Authentication

Protect Your Authentication Application with i-Sprint Mobile Token for SWIFT

i-Sprint Mobile Token is an OATH compatible token that may be used in combination with your SWIFT Application for One-Time-Password (OTP) authentication.

For your other authentication needs, i-Sprint provides an authentication method agnostic server with support for different mechanisms (One Time Password, Biometrics, End-to-End Encryption Authentication) from multiple vendors (Vasco, Gemalto, V-Key, etc.) and form factors (SMS, Mobile, Hardware).

i-Sprint is a premier identity, credential and access management solutions provider. Our product offerings also include Single Sign On, Privileged Password Management and Product Identity (the next-gen anti-counterfeiting, track and trace, and interactive consumer engagement).

How to Download ?

Method 1: Search for **SWIFT Token** on your App Store or Google Play Store.

Method 2: Download the app at http://www.i-sprint.com/products/i-sprint-mobile-token-for-swift/

Available on the **App Store**   GET IT ON **Google Play**
